

**Careers at Murphy Company**

## Our Company

For over 100 years, Murphy Company has manufactured wood products for discerning customers who demand quality.

From softwood plywood, hardwood plywood, and LVL to green and dry softwood veneer, we understand our customer's needs and provide solutions.

By controlling the manufacturing process - from tree to finished product - we provide exactly what our customers require at a competitive price.

## Why Murphy Company?

As a family-owned business, Murphy takes pride in having employees who care about its customers and deliver the best products and service every day.

A company is only as good as its people, and Murphy takes pride in hearing customers say that Murphy's people offer a rare combination of expertise and impeccable service. The highest value of commitment is placed on our relationship with our employees.

We are committed to the growth, development and long-term security of our employees. We act on the conviction that our employees will always be our most important asset.

The greatest testament to our values is the community of people who live them every day: our employees. Our employees are mentored, weaknesses coached and strength and individual achievements are recognized.

We are committed to provide our employees a stable work environment with equal opportunity for learning and personal growth. The growth and success of Murphy Company depends largely upon employee satisfaction.

While our capabilities are continually transformed by innovation, a person has led every advance we have ever made. Recognition of this dynamic fuels a significant investment in our people. We invest in the people who invest their work in our company.

## Benefits

We provide an excellent wage and benefit package, including medical, dental, vision, and life insurance, 401(k) with company match, paid time off and holidays.

We are an equal opportunity employer. We provide equal opportunity to all qualified applicants, including veterans, and people with disabilities.

## Softwood Veneer

Murphy operates two veneer plants to supply Murphy finished product operations. Producing our own core veneer ensures that Murphy plywood and Murphy LVL are produced with the best veneer possible for all finished products.

Some key specifications include:

- Standard and custom peel thickness
- Western softwood species
- LVL quality veneer grades
- Onsite drying
- FSC® and SFI certified

## Softwood Plywood

Our name is synonymous with softwood plywood. Returning to our roots, the Murphy Rogue River softwood plywood plant began operation in Winter 2010, allowing us to further integrate and consume inter-company veneer for the benefit of our customers.

- APA Performance rated panels
- Sanded Panels
- Touch Sanded
- Concrete Form

## Laminated Veneer Lumber (LVL)

Providing the superior performance and durability of engineered wood, Murphy Douglas Fir LVL is perfectly suited to spans bearing heavy loads and multi-span applications. The normal problems associated with increased lumber sizes – like decreased dimensional stability and uniformity – do not apply to our LVL, which utilizes ultrasonically tested and graded Douglas fir veneer with evenly dispersed natural defects.

- Widths up to 24"
- Lengths up to 72'
- Thickness 1-1/4" to 3-1/2"
- FSC®, SFI and APA certified

## Hardwood Plywood and Paneling

Located in Eugene, Oregon, our Hardwood Division has over 50 years of hardwood plywood and specialty product manufacturing experience. Custom crafted to your specifications, Murphy offers a wide variety of options to fit our customer needs.

Real wood veneers, interior and exterior grade plywood, clear, stained and opaque UV finishes, vinyl and thermo-fused melamines are just a few. We also offer various thickness and ply options, as well as a selection of cores, including veneer, composite, Fiber-Ply™ (MDF X-Bands), and calibrated veneer core panels.

- Hardwood plywood
- Real wood and laminated wall paneling
- Cut to size panel parts and drawer sides
- FSC® certified, SCS-COC-002148
